

# HEALTH AND SAFETY

## PROTECT YOURSELF AND FELLOW MOUNTAINEERS!

You must **SELF-QUARANTINE/SELF-MONITOR** for five days if you return to campus/Morgantown if you travel domestically outside of West Virginia. This does not include commuting to work.

In addition to specific institutional policies, the following are **REQUIRED** of all individuals who live in or visit a University Apartments community (College Park, University Park, University Place or Vandalia):

- Residents are required to wear masks in all hallways, lobbies, stairwells, elevators, offices, shuttle vehicles and any other space where residents may interact with others in close proximity when distancing is not possible.
- The mask should cover both the individual's mouth and nose.
- Masks are not required within an apartment; roommates may mutually agree that masks are to be worn in common spaces within an apartment.
- When possible, residents are always expected to stay at least six feet away from each other.
- Residents are required to follow all posted directional signage and capacity limits of designated spaces.
- You are discouraged from having guests during this time to mitigate the spread; no more than one guest per person/per unit at one time, per your Resident Handbook.
